I spoke to  this morning.  has

STAT

written the COINS subsystem managers asking for agency contributions to the next COINS semi-annual report, due out in January.

STAT

Bob had previously asked me if that massive volume was an IHC requirement from  or if George just writes it on his own hook. The subsystem managers had to write contributions for George for the 22 October letter to Rostow, and again for the COINS master plan (which included a progress report through 2 December 1968). Bob feels that another massive update is superfluous paperwork so soon after the COINS Master Plan. Since IHC will be writing their own paragraph on COINS for our Annual Report update, Bob would like you to ask George to relent at this time - or at least until there is something new to report.
